Pinpoint materials and categories where you are paying more than your peers, with automated renegotiation opportunities delivered by Sievo community intelligence. **Enter discussions prepared** with objective, peer benchmark data based on transactions and **secure the most favorable prices** to stay ahead of the rest of the market, even in non-commodities like MRO.

800+ category-based price indexes | **400+** material-based price indexes

Discover alternative suppliers for better sourcing opportunities

Discover commonly used suppliers within the Sievo community, that you have not done business with before. **Identify transaction-validated alternatives for sourcing opportunities** based on location or category from your Sievo peers.

Sievo Community Data is powered by cleansed, anonymized and, aggregated data

The benchmarks or other community data sets do not contain any information that can be linked to an individual customer

The underlying data has gone through the standard Sievo process for cleansing and validation to ensure data integrity

Data reliability and anonymity are further ensured by requiring aggregation from at least three customers to establish a benchmark

#1 Procurement Technology Awarded by SpendMatters
