

Sievo

Fastest time-to-value Procurement Analytics for enterprises

Gain comprehensive visibility to your spend, categories and suppliers to unlock new savings, ensure supply continuity, improve sustainability, and achieve bottom-line impact.

Trusted by

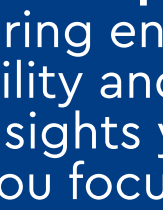

Building your own analytics solution costs you more than you think

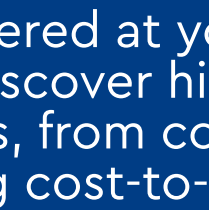

You make too few, critical business decisions too slowly, relying on poor-quality data

You waste millions in potential savings because of missed opportunities

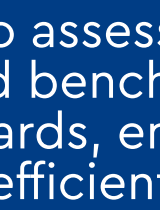

You cannot make informed decisions due to lack of procurement visibility

Sievo guarantees **94% AI-powered classification accuracy** and **98% coverage** at the **deepest granularity** feasible. Ensuring end-to-end data accountability and providing actionable insights you can trust, Sievo helps you focus on strategic initiatives.

Generate **average of \$20M incremental savings for every \$1B** analyzed with Sievo's powerful insights delivered at your fingertips. Easily discover high-value opportunities, from cost reductions and optimizing cost-to-emission ratios to working capital improvements and managing tail spend.

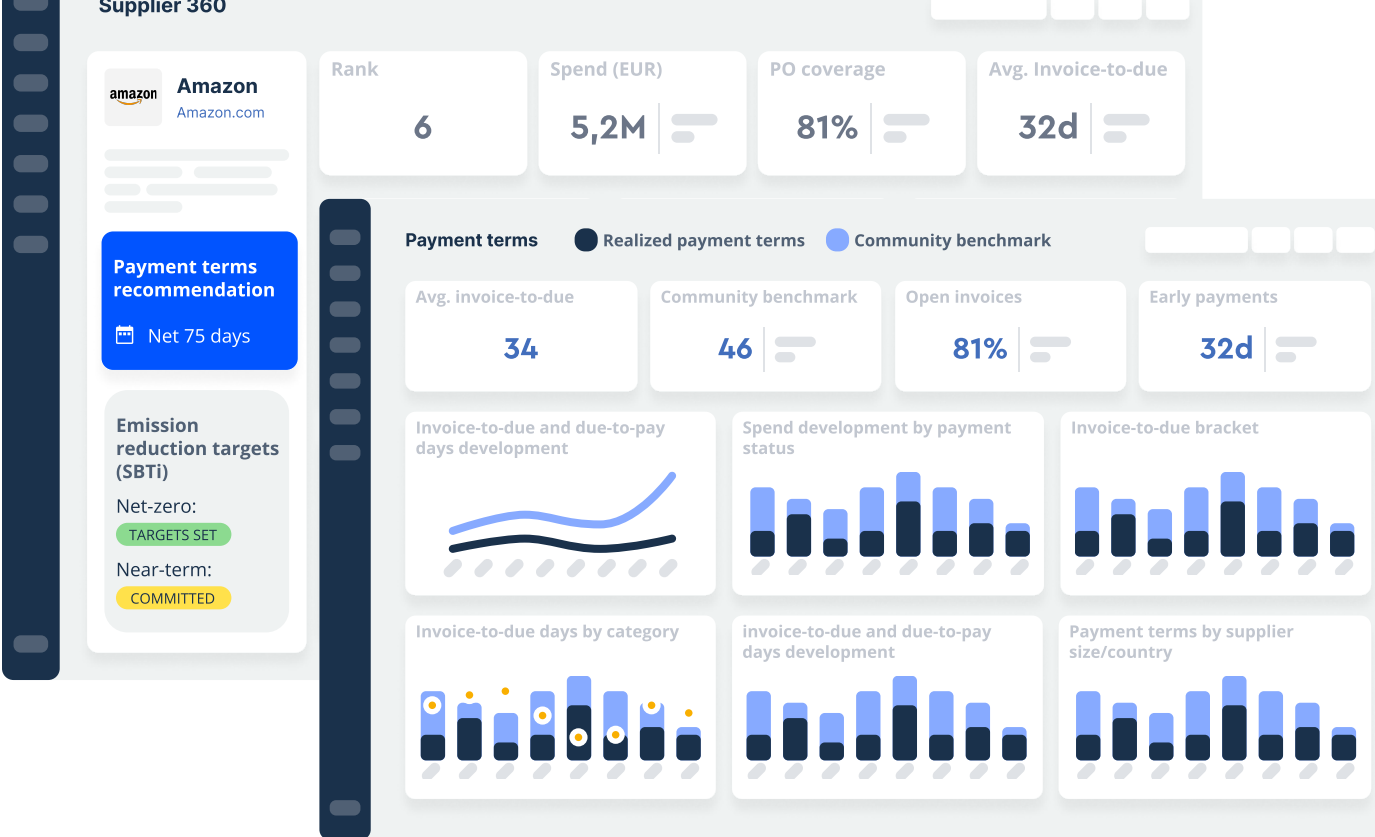

Sievo provides a **360° view of your supply chain**, integrating spend data with benchmarks and analytics. This enables you to assess performance, improve, and benchmark against market standards, ensuring a more transparent, efficient, and resilient procurement process.

Close the data-to-action gap with Sievo

Don't just analyze your data, act on it. Benefit from advanced insights and best practice analytics to improve the user adoption and gain true 360° view of your procurement data to maintain an efficient and sustainable supply chain.

Make high-impact decisions based on reliable data

Sievo integrates with any data source, making it **ideal for large companies** with complex procurement landscapes. Ensuring **end-to-end data accountability**, Sievo manages data extraction, cleansing, classification, harmonization, and enrichment, to deliver actionable insights, while you maintain in control with reclassification, reparenting and approval features. Gain credibility with stakeholders by making **informed decisions** using **reliable procurement analytics**, rather than debating the data quality.

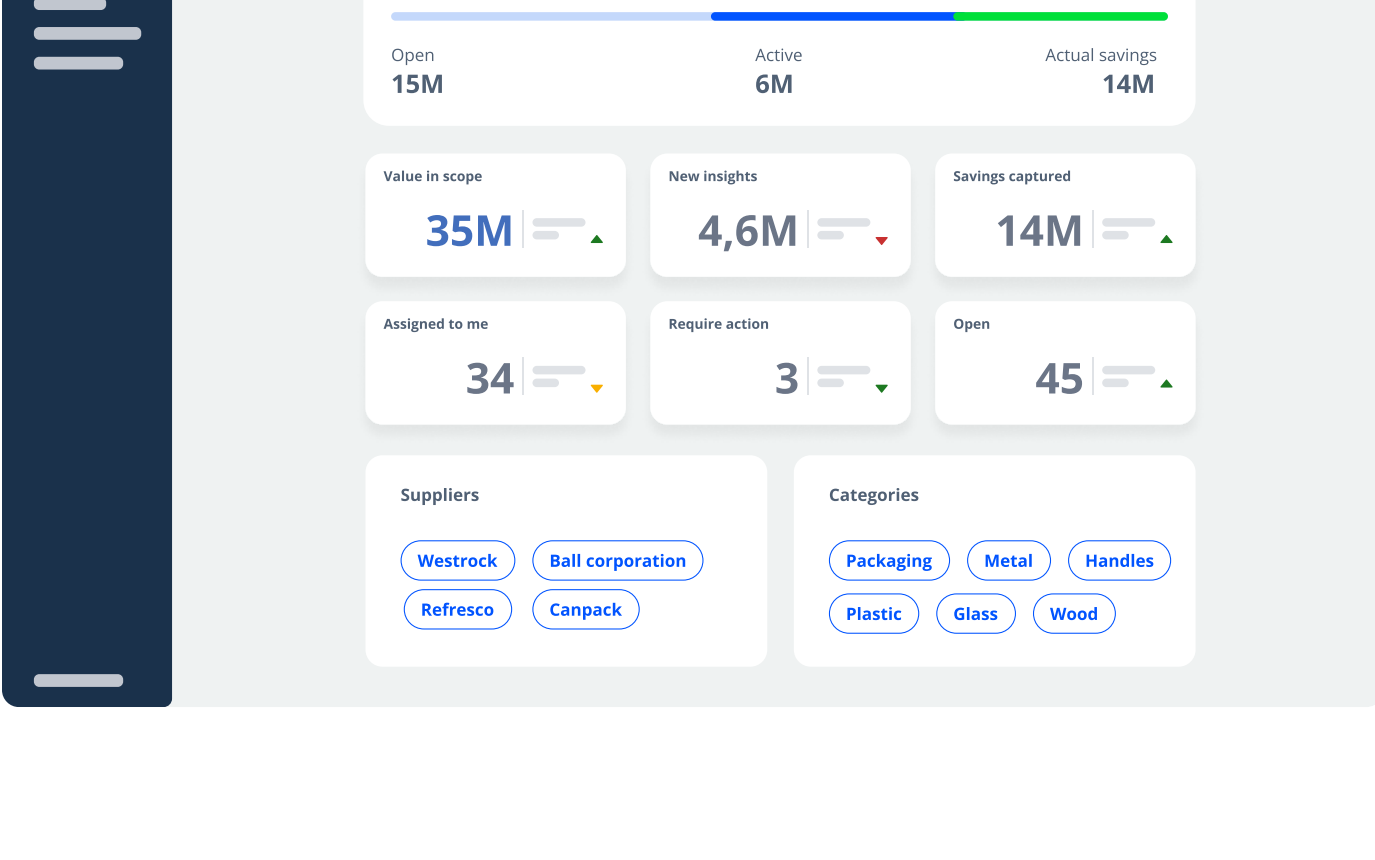

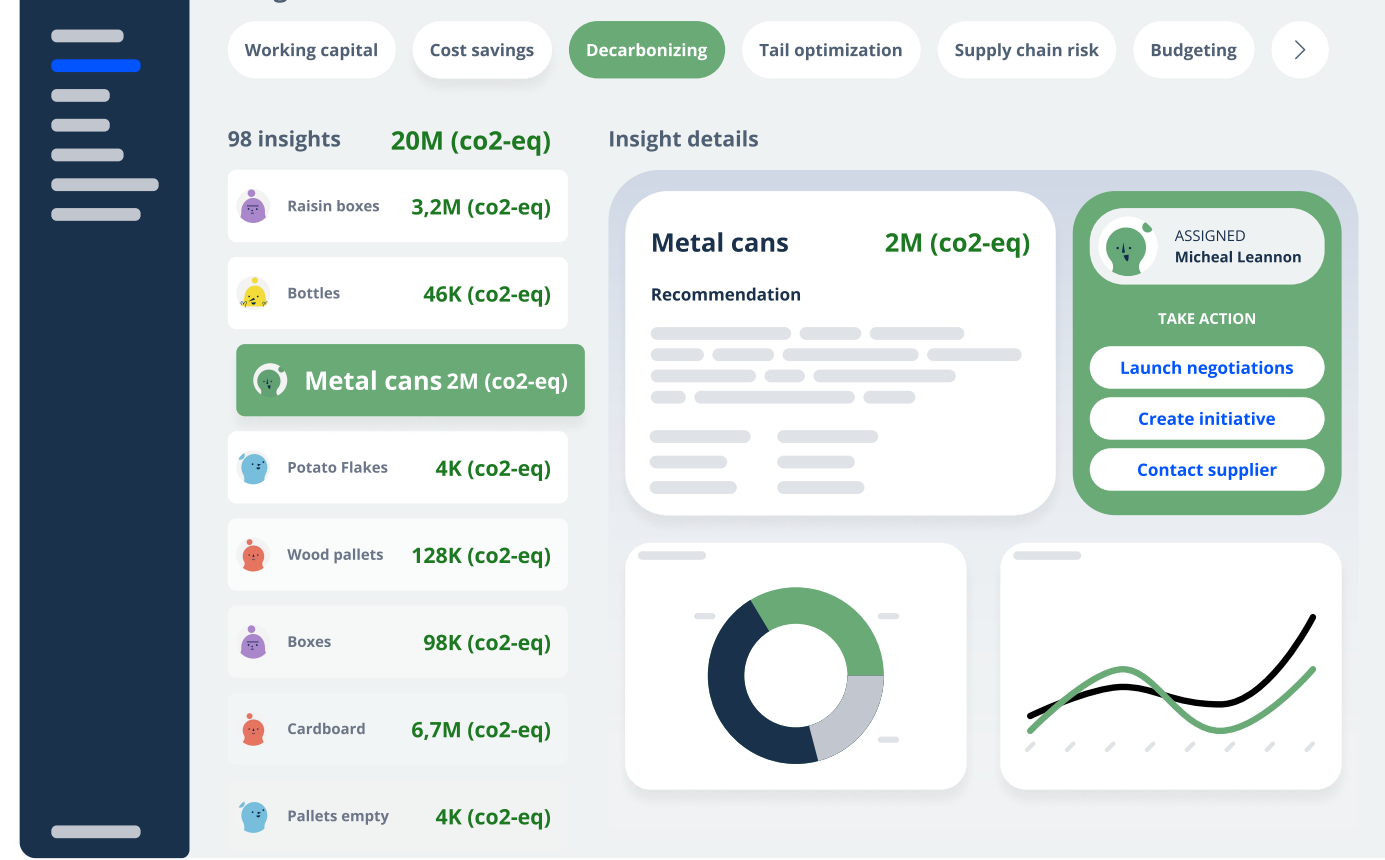

Harness the power of the largest database in procurement analytics

Sievo makes it easy to get a complete view of your supply chain by combining your internal data with trusted third-party and Sievo Community Data. Every year, **Sievo processes spend data equal to over 2% of global GDP**. With this **360° view of your spend**, you can choose the best suppliers, negotiate better terms, cut carbon emissions, reduce risks, ensure a steady and diverse supply, and more.

Capture every savings opportunity without the manual work

Sievo delivers actionable and highly personalized insights, **automating time-consuming analysis** while digging deep under the surface across the entire data landscape. Sievo enables you in making **more decisions, faster** and **automate action**. Send auto-generated supplier emails, initiate autonomous negotiations or drive savings and emission reduction forward with initiatives, all with just one click. With Sievo, you can achieve **80% improvement in purchase cost reduction**.

Maximize ROI and user adoption

Attain 63x ROI with a solution that delivers savings and procurement efficiencies, without requiring IT or other resources in continuous use. Ensure **high user adoption** of your solution to achieve your savings goals, supported with adjustable self-service analytics and guided learning center, including certifications. With Sievo's user friendly interface, **get started quickly and easily** with high-quality analytics while maintaining a future-proof setup.

Sievo offers the tools, the services and the data you need to drive business results

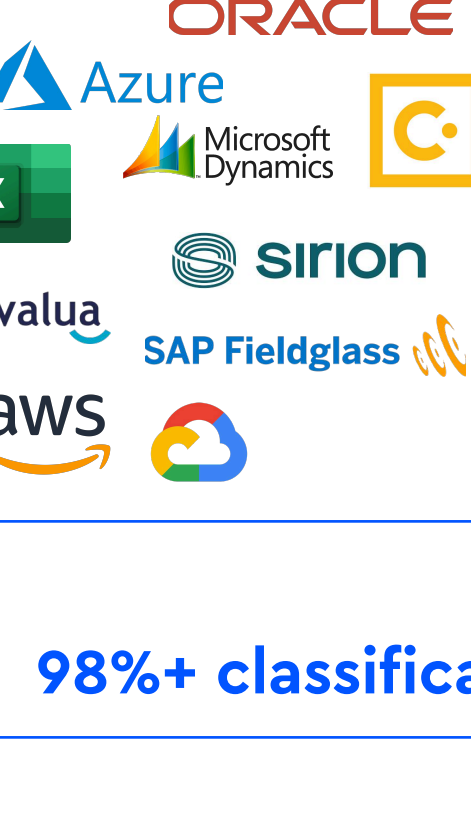

Enable your procurement, finance and sustainability teams to drive savings, initiatives, budgeting and forecasting, and build a sustainable, resilient and diverse supply chain with high-quality and high-volume data. Sievo provides user-friendly analytics, powerful insights and recommendations – all in one hub.

Darren McGrath
Global Chief Procurement Officer
at WernerCo

“ I can't believe how inefficient we would be if we had not implemented Sievo as a procurement analytics solution and, hereby, as a single point of truth a few years back. I get around 20 questions from our leadership about spend figures, **now it takes me like 15 seconds to find the information.**

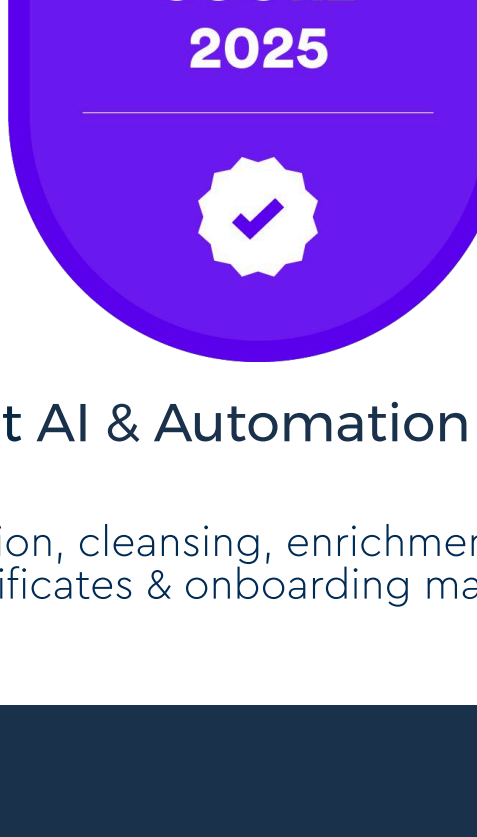

Stephan Schulte
Head of Procurement Steering & Analytics
at Deutsche Telekom
